My Business Manager extracts data from your accounting system and creates readable business management reports.

Choose a “Two Page Dashboard” or select from a library of dashboards and reports, whatever you need.

Numerical or graphical, you select.

Whenever you need it, every day, every week or every month.

See your results compared to the same period last year to measure growth or compared to budget to see how the business is performing and where it needs attention.

Imagine arriving at work and having the reports sitting in your Inbox ready for action!

## DON'T STAY IN THE "RISK ZONE"

WITH MY BUSINESS MANAGER, YOU WILL ALWAYS  
KNOW HOW YOUR BUSINESS IS DOING

Too many businesses get into trouble because cashflow and other financial problems aren't identified until it's too late.

You're probably too busy to spend hours every week poring over accounting reports in order to understand what needs urgent attention.

My Business Manager is the first business reporting tool to take information straight out of your accounting system and present it in practical, easy to understand reports.
