HOW?  
BY GIVING YOUR CLIENTS  
A TWO PAGE REPORT  
EVERY MONTH SHOWING:

- REVENUE
- EXPENSES
- MARGINS
- NET PROFIT
- CASHFLOW
- AGED DEBTORS
- AGED CREDITORS
- TOP 10 PRODUCTS AND SERVICES
- TOP 10 CUSTOMERS

AND THEN SCHEDULING  
A ONE HOUR MEETING  
EVERY QUARTER TO  
DISCUSS THE RESULTS  
AND ACTIONS.

Your Clients can't read the financials from their accounting systems.

There are just too many numbers, too much information and Clients turn off when they can't understand.

My Business Manager™, is a simple application that turns financial information into dashboards, graphics and Key Performance Indicators (KPIs) that your Clients **will** be able to understand.
